

Ways to say goodbye

After a termination of pregnancy at Abortion Care Europe, we would like to help you process this. This letter provides information about ways to say goodbye to your pregnancy.

- *Collective cremation without scattering*

The pregnancy tissue remains at the clinic where it is carefully preserved. At a later date, the cremation will be collectively conducted by a specialized company.

This is the standard method if no choice has been made regarding the funeral method. If you would like to make a different choice, you must indicate this before the procedure.

- *Collective cremation with scattering*

The pregnancy tissue remains at the clinic where it is carefully preserved. At a later date, the cremation will be collectively conducted by Dela Crematorium. The ashes will be scattered at the Sterretjesveld (Field of little stars) at Akendam Cemetery in Haarlem.

- *Individual cremation*

The morning after the termination, you bring the fetus in a sealed casket to Dela Crematorium in Haarlem. The cremation usually takes place there on the same day. You can have the ashes scattered at the Sterretjesveld (Field of little stars) at Akendam Cemetery in Haarlem, or you can collect them.

There are costs involved.

- *Individual burial (for residents of the Netherlands only)*

The fetus will be collected by a funeral director, or you can bring it yourself in a sealed casket to Dela Crematorium in Haarlem. You can also take it with you and bury it yourself through another funeral home of your choice, or on your own property. Rules apply to this. The nurse can provide more information.

There are costs involved.

Abortion Care Europe arranges collective cremation with or without scattering. There are no costs involved. If you have any questions about collective cremation, please contact our staff.

For questions about private cremation or burial, please contact Dela or a funeral director.

If you wish to bury the fetus yourself, you will need to bring a small wooden box. This is also available for purchase at our clinic.

Contact

The clinic can be reached by phone from Monday to Friday, from 8:30 AM to 4:45 PM, to schedule an appointment or for more information about treatment or costs.
